

General Instructions:

This is a voluntary, anonymous survey. Although we do not want to know who you are, we do want to compare your answers now with your answers later. Therefore, we need a number that only you will recognize, but that when you use it – we will be able to match your initial answers with your subsequent answers. **Therefore, we want you to create your own identification number.**

Personal Identification Number Instructions:

You will do this by filling in the answers to the following questions in the spaces provided below. Please print your answers clearly.

1. In the first space, fill in the month that you were born.
2. In the next two spaces fill in the number of *tattoos* you have today (1/20/99).
3. In the next two spaces fill in the number of *body piercings* you have today (1/20/99).
4. In the next space, if you were a science major as an undergraduate (e.g., social science, math, etc) circle S, if you were not a science major as an undergraduate (e.g. social work, humanities, etc.) circle NS
5. In the last space, circle the *sex* (F or M) and then the *last name* of your favorite undergraduate professor.

Instructions:

We want to know how confident you are, in your ability to perform specific social work tasks. After you consider each task, please rate your confidence in your ability to perform that task successfully, by **circling** the number from 0 to 100 that best describes your level of confidence. What we mean here by *successfully*, is that *you would be able to perform the specific task* in a manner that a social work supervisor would consider excellent. The phrases above the numbers [0 = *Can not do at all*; 50 = *Moderately certain can do*; and 100 = *Certain can do*] are only guides. You can use these numbers or any of the numbers in between to describe your level of confidence. **We want to know how confident you are that you could successfully perform these tasks today.**
