PLANS FOR EXCHANGES

VIRGINIA-ISRAEL COMMISSION

NEIL NOVEMBER, CHAIRMAN

APRIL 22, 1987

COMMONWEALTH of VIRGINIA

Office of the Governor
Virginia - Israel Commission

P.O. Box 1475
Richmond, Virginia 23212

April 22, 1987

Ten months ago, Governor Baliles challenged the members of the Virginia-Israel Commission to "...develop plans for a board series of exchanges -- of people, ideals and exhibits -- to be carried out during the period preceding Israel's 40th anniversary."

During the time that has passed, the members of this Commission, interested citizens from throughout Virginia, and the staff have worked diligently, and sometimes feverishly, to put into place the exhaustive plans contained in this report. Talents have been drawn upon from every corner of the Commonwealth.

Our counterparts in Israel have joined in the spirit of the Governor's initiative -- graciously hosting our delegation in January and working with us at every stage to develop this report and to prepare for the enormous task we face in carrying out our plans.

The Governor's vision and initiative are both bold and historic. We believe the plans contained in this report, and our firm resolve to carry them out over the course of the next twelve months, will ultimately fill the Governor's charge that we "...expand opportunities for cultural, educational and economic development between the Commonwealth and the State of Israel."

Respectfully submitted,

A handwritten signature in dark ink, reading "Neil November", with a long horizontal flourish extending to the right.

Neil November

In addition, a separate group of Israeli journalists will be invited to visit Virginia and participate in a seminar on issues such as libel, freedom of the press, censorship, etc. This discussion may be held in conjunction with a Virginia press association conference, and would be videotaped and made available to cable companies and television stations for distribution. Copies of the tape would be sent to journalism schools in the Commonwealth as well.

III. OBJECTIVE

The objective of the first exchange is to provide information to the public about the people, lifestyles, accomplishments, etc. of both Israel and the Commonwealth, including press coverage of the other exchanges carried out by the Commission.

The panel discussion or seminar on press issues will highlight the differences and similarities of the media, including the collection and dissemination of information, in the two countries and should be informative for both professionals and students alike.

I. TITLE

Host Visiting Israelis

II. DESCRIPTION

From the beginning of the Virginia-Israel Commission to date, and through the attached proposed agenda, the Committee on Economic Development has and will receive officials from Israel, both Commission members as well as other government and private sector individuals. Such visits are either initiated by the Israelis, or are in response to the efforts of Committee members to initiate dialogue and trade. Examples of such visits may be found in Sections E and F of this report.

When receiving such visits, it is necessary to brief the individuals on Virginia in general, and then specific issues according to our mutual interest. For example, officials from the Ministry of Energy received a briefing on Virginia in a broad way, and detailed briefings and meetings with coal suppliers in Virginia. It should be noted that throughout the attached agenda, the sale of Virginia coal will be promoted whenever possible.

III. OBJECTIVE

The objectives of receiving Israeli officials are primarily twofold. First, certain visits are necessary to organize and plan exchanges between Virginia and Israel as described in this report. Secondly, and more importantly, most visits are in reference to a specific opportunity to increase trade and/or investment between the two states. Such was the visit of the Israeli Ministry of Energy -- to suggest Virginia as a supplier of coal.

IV. PRIMARY RESPONSIBILITY

Paul H. Grossman, Jr. and J. Roger McCauley

V. PARTICIPANTS

The participants of this item vary depending on the objective of the proposed visit. It should be noted that key government leaders will be involved, and, to the fullest extent possible, private sector business leaders will be encouraged and invited to participate.

VI. TIME FRAME AND DURATION

As mentioned, visits have already taken place, both in the planning phase of this Committee's work, as well as substantive exchanges. The time frame for additional visits is set forth in the remainder of this report, though it is hoped that this simply lays the foundation for continued exchanges in the years to come.

VII. BUDGET

- A) Total budget - \$5,000
- B) None, though it should be noted that private sector organizations often donate either time or money in regard to specific visits. For example, Virginia Power arranged for an exhaustive tour of its nuclear power station.
- C) See B above.
- D) Net cost to Virginia-Israel Commission - \$5,000.
- E) These monies will be required over the course of the year, when visits occur, and not on specific dates.

VIII. OTHER ORGANIZATIONS OR ASSOCIATIONS INVOLVED

The Department of Economic Development, which is staff to the Virginia-Israel Committee on Economic Development, will serve as the primary organization arranging for and conducting such visits. Other state agencies and private sector groups in Virginia will be called upon for assistance depending on the nature of the visit. By the same token, the Israeli organizations involved will depend on the nature and purpose of the visit.

IX. OTHER COMMITTEES OF THE VIRGINIA-ISRAEL COMMISSION INVOLVED

IV. PRIMARY RESPONSIBILITY

Paul H. Grossman, Jr.

V. PARTICIPANTS

I. TITLE

Israel Free Trade Area Agreement Seminars

II. DESCRIPTION

The Israel Free Trade Area Agreement coupled with a similar relationship between Israel and the EEC can be of great value to Virginia firms selling to Europe, but hampered by EEC tariffs on non-EEC products. Specifically, a Virginia firm may enter the EEC market with greatly reduced or no tariffs if it routes the product through Israel and adds a specified amount of values. Since this is a recent development, few U.S. firms are aware of it, and thus it must be disseminated to Virginia firms, so that they may begin assessing the advantages for their own companies.

III. OBJECTIVE

To convey the messages of the commercial value of these agreements to Virginia firms. This, should, in turn, increase the sale of Virginia products into the EEC.

IV. PRIMARY RESPONSIBILITY

Trade Mission to Israel

II. DESCRIPTION

The Israeli economy offers exciting business opportunities for Virginia businessmen. The best way to become familiar with these opportunities is to visit the companies and get first-hand information. In addition, opportunities exist for Virginia firms to penetrate the EEC market via the recently negotiated Free Trade Area Agreement. With these two opportunities in mind, a trade mission of Virginia businessmen to Israel is proposed.

III. OBJECTIVE

The Commission will encourage each of its business members to make one business trip to Israel during the year. To facilitate this effort, the Committee will organize a group trade mission and encourage as many members as possible to participate. Participation will not be limited to Commission members.

I. TITLE

Holocaust and Human Rights Curriculum

II. DESCRIPTION

Under the supervision of Dr. S. John Davis, the Department of Education, working with a prototype developed by a group of teachers at Hidden Valley Junior High School in Roanoke, has created a model curriculum on the Holocaust, which in its first edition, is now ready for distribution to division school superintendents throughout Virginia. This model curriculum will carry recommendations for adoption from the Education and Holocaust Education Committee of this Commission, and from the State Board of Education. The author of this report will address the convention of division superintendents in Roanoke on May 6, 1987, on the significance of the curriculum and the importance of its adoption.

III. OBJECTIVE

The objective of the curriculum is two-fold. First it will introduce into the public schools of Virginia specific course material in content and organization that can be used by teachers at the middle and high school levels for teaching the Holocaust as the most terrible example of the evils to befall human freedom and individual dignity when a state or society sponsors and translates hatred and prejudice into organized political activity. Second, it will alter the consciousness of future generations of school children in the Commonwealth by making available, in concentrated study and learning, an examination of the greatest deliberate process of human destruction in the lifetime of man, and a social and political phenomenon only education gives us the hope of keeping unique in human history.

IV. PRIMARY RESPONSIBILITY

Charles W. Sydnor, Jr., and Dr. S. John Davis

V. PARTICIPANTS

Ms. Patricia Bijwaard and Ms. Lynn Payne of Hidden Valley Junior High School, and Dr. Clyde Haddock and Mr. Harvey Carmichael of the State Department of Education have worked with Mr. Ira Gissen and the staff of the Anti-Defamation League of B'Nai Brith in developing the first edition of the curriculum. The first edition will be sent to Mr. Arie Shoval, Deputy Director-General in the Ministry of Education and Culture in Jerusalem for his distribution for review, critique and comment within the Ministry and the Israeli education community. At the same time, Mr. Shoval will make

available models of the Holocaust curricula used in Israeli junior high and high schools. After study of the Israeli models, and an opportunity to monitor and review the experiences gained in teaching the Holocaust based on the first edition of the curriculum, the Department of Education, in consultation with the Education and Holocaust Education committee, will prepare a revised, second edition of the recommended curriculum to be made available to local school divisions by the autumn of 1988.

VI. TIME FRAME AND DURATION

First edition of the curriculum will be used in the 1987-88 school year; the second edition in subsequent years thereafter.

VII. BUDGET

There will be no cost to the Commission. All expenses relative to the development and distribution of the curriculum models have been, or will be, absorbed by the State Department of Education.

VIII. OTHER ORGANIZATIONS OR ASSOCIATIONS INVOLVED

The State Board of Education, the Anti-Defamation League of B'nai Brith, the Virginia Education Association, and any other professional educational groups the Superintendent of Public Instruction may deem it advisable to involve.

I. TITLE

Teacher exchanges

II. DESCRIPTION

Two teachers from the Commonwealth of Virginia, to be selected jointly by the Education and Holocaust-Education Committee and the State Department of Education, will participate in a standing, six-week seminar in Israel between June 20 and July 21, 1987. Under arrangements made by Arie Shoval, Deputy Director General in the Ministry of Education and Culture, these two teachers from Virginia have been added as participants to an existing program administered through the Fulbright Office in the U. S. Department of Education. In August of 1987, four teachers selected by the Ministry of Education and Culture in Jerusalem will visit the Commonwealth of Virginia for one week following their participation in a standing program similar to our Fulbright arrangement. The four Israeli teachers will come to Virginia after a six-weeks course of study at Columbia University.

III. OBJECTIVE

The primary objective of these two exchange programs is to give high school teachers from Virginia, and their counterparts from Israel, an opportunity to experience the country and the Commonwealth as these exchange programs seek to draw closer together to learn something of the educational systems of Israel and Virginia at the secondary level. Though the period of residence will be much longer for the two Virginia teachers going to Israel than for the Israeli teachers coming to the Commonwealth, officials in the Ministry of Education and Culture and the members of the Education and Holocaust-Education Committee feel these exchanges for the summer of 1987 have the potential for becoming an established and ongoing program between the Commonwealth of Virginia and the State of Israel.

IV. PRIMARY RESPONSIBILITIES

Charles W. Sydnor, Jr. and Dr. S. John Davis

V. PARTICIPANTS

Four Israeli high school teachers, to be selected by the Ministry of Education and Culture in Jerusalem will come to Virginia for one week in August of 1987 (precise time as yet to be determined). Two teachers from the Commonwealth of Virginia, selected by the Education and Holocaust Education Committee and the State Department of Education will participate in a six-week study-tour program in Israel between June 20 and July 21, 1987. Appropriate officials,

superintendents, principals, and teachers, both in Israel and in Virginia will participate in the programs for the respective visitors.

VI. TIME FRAME AND DURATION

The two Virginia teachers will be in Israel in June and July of 1987; the four Israeli teachers will be in the Commonwealth of Virginia for approximately one week, or slightly longer in August of 1987.

VII. BUDGET

A. Total budget \$6,500.00.

Round-trip travel for the two teachers from Virginia, plus living expenses during the six weeks in Israel for one of the teachers, including food and some lodging, approximately \$5,000.

Cost of travel while in Virginia plus lodging, meals and programs for the four visiting Israeli teachers -- \$1,500.

B. None.

C. The Ministry of Education and Culture in Israel will pay for the living expenses in Israel of one of the two teachers from the Commonwealth of Virginia. The Ministry will also be responsible for the travel costs and other expenses of the four visiting Israeli teachers while in the United States, until they arrive in Virginia, and from the time they depart the Commonwealth.

D. Net costs to the Virginia-Israel Commission--\$6,500.00.

E. \$5,000 will be needed in the period 14-28 days before the departure by the two Virginia teachers to Israel. The balance of \$1,500 will be needed 30-45 days before the visit to the Commonwealth of Virginia by the four visiting Israeli teachers.

VIII. OTHER ORGANIZATIONS OR ASSOCIATIONS INVOLVED

The State Department of Education, the Department of Travel and Tourism, and the Members of the Education and Holocaust-Education Committee will be involved for planning the program for the visiting Israeli teachers and in making arrangements for their accommodations.

IX. OTHER COMMITTEES OF THE VIRGINIA-ISRAEL COMMISSION INVOLVED

The Committee on Tourism and the leadership tour will be

asked to make, through the designated travel agent, the international travel arrangements for the two teachers from Virginia going to Israel. The Department of Travel and Tourism will be asked to assist the Department of Education and the Committee on Education and Holocaust Education in arranging the program for the visiting Israeli teachers.

I. TITLE

Student Exchanges

II. DESCRIPTION

Under pending arrangements still to be worked out by the Ministry of Education and Culture in Israel and the State Department of Education in Virginia, comparable size groups of junior high and high school students will participate in an exchange program in the summer of 1988. The State Department of Education is now pursuing discussions with Israeli officials for an exchange based on a matching schools concept. The specific details for the exchanges, including the duration, the type of programs to be offered, accommodations, tours, and other activities are yet to be decided upon by officials in Jerusalem and in Richmond.

III. OBJECTIVES

The objective of the exchange program will be to offer to young people from the Commonwealth of Virginia and from Israel the opportunities to engage in a program of travel and study that will strengthen the visitors' familiarity with the educational system, lifestyle, and social and cultural customs of their hosts. Such a summer exchange program, involving study, travel, and the experience of living with families here in Virginia and in Israel will offer the participating students a unique educational opportunity, and in the process strengthen the direct awareness that young people in Israel and in Virginia have of both the similarities and the differences in their respective societies and school systems.

IV. PRIMARY RESPONSIBILITY

Charles W. Sydnor, Jr. and Dr. S. John Davis

V. PARTICIPANTS

Though the precise number of students to be offered the opportunity of participating in the exchange programs has not yet been determined, both officials in Jerusalem and in Richmond anticipate making provision for ten to fifteen Israeli students to come to Virginia, with an equal number of Virginia high school students selected for a study-tour in Israel. The Israeli students will be selected through a process determined by the Minister of Education and Culture in Jerusalem, and the students from Virginia selected to travel and study in Israel will be selected through a process determined by the State Department of Education. The details for the student exchange programs will be worked out through discussions and negotiations which will be completed before the end of 1987.

VI. TIME FRAME AND DURATION

At present, it is anticipated that the Israeli students and the young people from Virginia will engage in simultaneous visits, the most likely period being July and August of 1988.

VII. BUDGET

A. Total budget \$32,000.

Round-trip transportation for approximately 20 students, ten Virginians and ten Israelis, not including any food or lodging since the assumption upon which planning for the exchanges is proceeding is that the students will live with families in both locations.

B. None.

C. The Ministry of Education and Culture in Jerusalem will endeavor to assist underwriting some of the travel costs for students. At this point, and because of budgetary and finance difficulties in Israel, it is simply not possible to estimate the extent of the Ministry's capacity to support the costs of the exchange programs.

D. Net cost to the Virginia-Israel Commission \$32,000.

E. The entire \$32,000 will be needed in the period 45 days prior to the reciprocal exchanges to Israel and Virginia in July, 1988.

VIII. OTHER ORGANIZATIONS OR ASSOCIATIONS INVOLVED

Local school divisions, and high schools, and/or middle schools as selected by the State Department of Education will be involved in arranging the programs and lodging for the visiting Israeli students. Colleges and universities in the Commonwealth may also be asked to participate.

IX. OTHER COMMITTEES OF THE VIRGINIA-ISRAEL COMMISSION INVOLVED

The Committee on Tourism and the Leadership tour will be asked to help make arrangements, through the designated travel agent, for all international travel involving both Israeli and the Virginia students.

The Committee on Customs and Lifestyles may also collaborate with the Education and Holocaust-Education Committee in helping to arrange student exchange and provide funding support for the program.

MEMORANDUM

TO: NEIL NOVEMBER
CHAIRMAN
VIRGINIA-ISRAEL COMMISSION

FROM: THE HONORABLE ALAN A. DIAMONSTEIN
CHAIRMAN
COMMITTEE ON GOVERNMENT

RE: FINAL REPORT

After lengthy discussion and great consideration of the charge given the Committee on Government of the Virginia-Israel Commission, it has been concluded that this charge can best be met through assisting in the planning of, and participation in, the Leadership Tour proposed for April, 1988.

Comparisons of the various aspects of the governments of Israel and Virginia, as with most of the Commission's projects proposed for the coming year, are best carried out through face-to-face discussions. It is believed that the most efficient and effective opportunity for facilitating such discussions will be presented during the course of the Leadership Tour.

Consistent with our charge, it is believed that public officials representing the various branches of state government should take part in the Leadership Tour. This committee will work closely with the Committee on Tourism and the Leadership Tour to identify individuals representing all branches of the governments of Israel and Virginia who should be matched together during the Tour. Furthermore, we will assist in the preparation of agendas for such meetings so that our charge of providing for a "comparison of the executive, legislative and judicial dynamics within each government" is fully met, resulting in an "exciting intellectual and practical basis for the sharing of ideas, concepts and methods."

We look forward to beginning our efforts in the aforementioned direction with the approval of the Executive Committee and the full Commission.

I. TITLE

Police Operations

II. DESCRIPTION

Individuals representing Virginia's law enforcement community will visit Israel to observe various operations conducted by the Israeli Police Department with particular emphasis on bomb detection, bomb response and explosives identification. They will also examine training and recruiting programs and the use of auxiliary police. Representatives of the Israeli Police Department will visit Virginia to look at training and recruitment programs, stress control and conditioning programs, and the use of computer assisted training for police officers. Of particular interest is the manner in which the Virginia police authorities interact with private police agencies. The nature of the exchange will consist of such activities as formal and informal meetings, seminars, participation in selected public safety operations, visits to police departments, ride alongs, etc..

III. OBJECTIVES

The primary objective of this exchange is to permit the respective police agencies to gain from the other's experience, especially where one agency has particular expertise.

A secondary benefit will be the development of lines of communication which will, most certainly, continue beyond the time frame of this Commission.

IV. PRIMARY RESPONSIBILITY

Mark E. Smith

V. PARTICIPANTS

While the final number of participants will be dependent upon budget availability, for planning purposes it is anticipated that four representatives from Israel's police community will travel to Virginia to participate in, and observe, the programs of interest to them.

Three representatives from the law enforcement community of Virginia will travel to Israel for a similar purpose.

VI. TIME FRAME AND DURATION

Each delegation will visit the other country for approximately a week. The Israeli delegation has requested that we consider the last two weeks in May, 1987 as the time frame for their trip to Virginia. The Virginia delegation will travel in late fall, 1987. That time period should avoid the heavy travel season and also give the exchange program an opportunity to evaluate the Israeli visit to Virginia and better plan for the visit of Virginia delegation to Israel.

VII. BUDGET

- A) Total Budget - \$15,000
Travel for seven individuals (three Virginians and four Israelis) including transportation, food and lodging - \$14,600
Other associated costs incidental to the exchange - \$400.

Corrections

II. DESCRIPTION

Individuals representing different facets of corrections in Virginia will travel to Israel to observe the Israeli program in operation. In addition to a thorough examination of Israeli corrections, they will focus on private sector industry programs, prison design, staffing issues, alternatives to incarceration and the use of electronic security devices in the prison environment. Likewise, individuals representing the Israeli prison system will travel to Virginia to tour various corrections facilities in the Commonwealth. They will focus on inmate rights, educational and leisure time programs for inmates and look at drug security and contraband control programs. Both delegations will examine inmate classification procedures, including assignment to protective custody, personnel issues related to the selection, recruiting and training of correctional officers and the common problem of employee stress control and conditioning programs.

III. OBJECTIVE

Problems associated with corrections are common to both Israel and Virginia. Accordingly, the primary objective of this exchange program is to permit participants to observe the manner in which some of these common problems are dealt with in the other country. Additionally, both the Commonwealth and the State of Israel have specific expertise and experience in certain areas which will be helpful to the other. For example, Israel's long experience in the use of electronic security equipment should benefit the Virginia delegation; Virginia's extensive experience in involving the local community in correction's issues is something that Israel is beginning to become involved in and will benefit from examining programs currently in place in Virginia.

IV. PRIMARY RESPONSIBILITY

Donald Zimmerman

V. PARTICIPANTS

Four members of Israel's corrections community to be selected by the State of Israel will travel to Virginia to observe first hand Virginia's handling of the the classification process, institution design and security, and community based programs. Four individuals representing corrections in Virginia will travel to Israel to observe the Israeli correctional program. Every effort will be made to ensure that each delegation includes at least one person experienced in managing a major institution.

VI. TIME FRAME AND DURATION
